Todo o código da Power.com, menos scripts do banco de dados, configurações do sistema, documentação e os dados do banco de dados.

Eu não tenho esses dados. Sugiro que você restaure o backup da Power, e monte um ambiente para os advogados usando o André e Leandro.

Abraço

Eric

Eric, can you tell me what appears to be included in the source code you sent me and what is not in there.

How could we get the stuff that is not in there?

I need to indicate and give an overview of what is in there and not in there to Facebook.

All the Power.com code, minus the database scripts, the system configurations, documentation and the data of the databases.

I do not have that data. I suggest that you restore the backup of Power, and set up an environment for the lawyers using either André or Leandro.

Regards

Eric
